## EXPLORING THE PAST

International Students of History Association

## WHAT IS ISHA ?

ISHA is an **international network of students of history** and related sciences. Our activities are open to all students with an interest in history from all academic backgrounds and levels of study – first-year through PhD. We have members in almost 30 European countries.

What is it about?

- \* Meeting students from other countries and universities
- \* Discussing history academically in an international perspective
- \* Learning about each other's views and backgrounds
- \* Sharing and deepening one's knowledge
- \* Having a good time together

**Becoming active in ISHA is simple.** All students are invited to participate in our seminars, conferences, and in various international projects. There are local member groups (sections) at universities across Europe. You can also submit an article for publication in the ISHA journal, **Carnival**.

## Our partners

ISHA is involved in many projects together with its partner organizations, for example: EUROCLIO, the European Association of History Educators (teachers), The European History Networks (CLIOH), International Committee of Historical Sciences (ICHS), ESU (European Students' Union), R2RC (Right to Research Coalition) and EGEA (European Geography Association for Students and Young Geographers).

## GET INVOLVED

ISHA and its members organize activities all over Europe. At the core are the international conferences and seminars, which are held year-round in different university cities under varying academic topics. These events usually last a week, during which the participants present their own interests and research, hear lectures, take part in cultural visits and excursions, and enjoy a social programme.
